DETAILED ACTION

Election/Restrictions

Applicant's election without traverse of Group I in the reply filed on April 10, 2006 is acknowledged.

Groups II-XII are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention, there being no allowable generic or linking claim.

Applicant reserved the right to file a divisional application to the non-elected subject matter.

Applicant is entitled to have Groups V and IX rejoined under M.P.E.P. § 821.04, since the claims of Group I are allowable. An amendment, which results in the method and process claims being commensurate in scope with the allowed claims, will be welcomed.

An action on the merits of Group I (claims 1-5 and 10) is contained herein.

Conclusion

This application is in condition for allowance except for the presence of non-elected subject matter in the claims.

The prior art does not teach any of the pyrrolidinohydrochinazoline compounds substituted in the manner claimed by the Applicant. Thus, the compounds in Group I were neither found to be obvious nor anticipated by the prior art of record. The prior art does not teach or suggest the presently claimed compound.
